

The following rules are intended to provide an enjoyable community camping experience for you and your neighbors. Parents are expected to inform their children of these rules and are responsible for their supervision. Violation of these rules could mean early departure without a refund.

REGISTRATION: All campers, visitors, guests and pets must be registered at the office in the Village Center upon arrival and prior to entering the campground, per Virginia State Law. All fees must be paid in advance. Registered campers are responsible for ensuring their visitors have properly registered in the office, and that all campground rules are followed.

CAMPSITE CHECK-IN TIME: Because our offices are still under construction, please make arrangements for your arrival time with Campground staff. You must have a reservation before arriving!

GUESTS: Facilities in the campground are for use by registered guests only. Visitors are required to register at the office before entering the campground. There can be no more than 8 people registered to one site at any given time. All visitors must leave the Village by 10:00PM. Registered campers are responsible for ensuring their visitors have properly registered in the office, and that all campground rules are obeyed.

SPEED LIMIT IS 5 MPH: If it seems ridiculously slow, you're doing it right!

PARKING: Registered guests must park by the campground bathhouse. Overflow parking available at the Village Center.

QUIET HOURS: 10:00PM – 8:00AM. The quality of rest and relaxation is important to all campers and this is a residential neighborhood, so please refrain from loud noises and disturbances during this period. All radios and TVs must be at minimum volume settings, and be aware that normal speaking voices carry. Please ensure your children remain at your site. Our quiet hours are strictly enforced.

WILD ANIMALS: Floyd is home to many wild animal species, including deer, coyotes and black bear. Please be sure to keep your food in appropriate storage and your trash in the available trash receptacles. Also, **PLEASE DO NOT FEED THE WILDLIFE** if you do cross their paths.

PETS: The Creekside Campground is pet-friendly, but owners will be totally responsible for their pets at all times. Pets cannot be left unattended at any time, and must be on a leash as per Virginia State Law. Be advised that this is a residential community and residents' pets may be roaming the grounds. You may not leave your pet inside your tent, in your car or tied up when you leave the campground.

All pet litter must be cleaned up immediately, and those not in compliance will be asked to leave the Village. Noisy pets will not be allowed to stay, and only one warning will be issued prior to request to remove pet from the Campground. You are totally liable for your pet should there be any claim.

ALCOHOL: This is a family Village and the use of alcohol is limited to your own site and should not be brought into any of our common areas without express permission.

CAMPFIRES: All fires must be contained inside the metal fire ring located in the center of the campground. Campfires must be kept knee-high or below, and not left unattended. The fire ring must not be used to dispose of cans, bottles, or other household trash. Do not move the fire ring. Please consult with your neighbors before lighting tiki/bug torches and be sure to extinguish them before retiring for the night.

FIREWOOD / TREES: Firewood is provided for the community fire pit on-site. However, no ax or hatchets are provided for resizing of available wood. Please, use only wood provided in the wood pile—no cutting of trees/firewood is allowed in the campground or adjoining properties. Please do not drive nails into, or disfigure trees. Additionally, please do not tie clotheslines to trees or shrubs.

WATER: All water in the bathhouse is potable (drinkable). Please do not drink water from the Campside Creek—the creek is downstream of the pond, gardens and orchard and will have manure and other runoff in it that is not appropriate for human consumption.

The discharge of grey water into the environment has also been found to be a significant risk to public health. Grey water can have a population of bacteria approaching or exceeding the populations of black water. Health Department regulations do not permit draining sink water on the ground or into open containers. Please dispose of grey water in the utility sink provided in the bathhouse and not in the woods or Campside Creek.

Please note: there are NO laundry facilities available for the campsite.

GARBAGE / RECYCLING: Please bag your garbage and use the can in the camp bathhouse. Please put all tin, aluminum, plastic and glass cans and bottles in the appropriate recycling bin provided in the utility sink area. Only household generated garbage should be placed in the trash cans. The fire rings must not be used to dispose of cans, bottles, and household trash. Broken furniture, grills, rugs etc. are not considered household trash and should be taken with you. This is our home and we take pride in the cleanliness of our village! Please do not litter. This includes cigarette butts!

BATHHOUSE: To avoid accidents and injuries, an adult should accompany children under the age of 6 years old to the bathhouse. We take pride in the cleanliness of our facilities and we would appreciate your help in maintaining them.

PRIVACY: Please respect the privacy of other campers and the owners by not walking thru or between occupied sites, or through the yard of the private houses. Please use designated roadways and pathways when walking thru the Village.
